Do you wish to Economise? Then buy a good article, even if you have to pay trifle more for it. It is waste of money to buy shoes, for instance, that will not last any time; better to buy such as are well made, and of the best materials, and will wear well. Is not this true? Then call at the subscriber's shoe store, where none but custom made shoes are kept. All kinds of Ladies and Children's made of the very best materials, and by superior workmen, and all warranted. These shoes never rip; the only complaint is, "they never wear out."

The subscriber is prepared to supply his customers, and all who may become such, with the finest and most highly-finished Shoes, Gaiters, Boots, Slippers, &c., as well as with the strongest and heaviest kind of Children's School, or every day shoes, intended for durability and hard service, and which last also includ a servant's Shoes and Boots, strongly made, yet handsomely finished,

and Boots, strongly made, yet handsomely finished, and warran ed to every purchaser.

Shoes of this kind, namely—m de of the best materias and by the best workmen—cost at first but a trifle more than those that are only made to sell; but will outwear three or four pairs of the latter, and of course are much the cheapest. An important consideration to all who have large families to provide shoes for, and not very long purses to draw from. Dr. Franklin never bought a poor article if he could get a good one, and it is generally believed he was a wise man.

Then call, one and all; follow the example of

IMPORTANT DISCOVERY. CONSUMPTION

AND ALL DISEASES of the LUNGS and THROAT

CAN BE CURED BY INHALATION.

CUIRED BY INHALATION.

WHICH CONVEYS THE REMEDIES TO THE cavities in the lungs, through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; nimely out of every hundred cases can be cured in the first stages, and lifty per cout, in the second; but in the third stage it is impossible to save more than five per cent. 'or the Lougs are so cut up by the disease as to bid defiance to medical skill.—Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this feaful accurage, which annually destroys ninety-five thousand persons in the United States alone; and a c rrect calculation shows that of the present populat on of the carth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares beither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom comment every good and 'erfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles in from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which catuses a weakened vitality through the entire yatem. Then surely it is more rational to expect good from medicines entering the eavisies of the lungs than from those administered by the stomach. To prove the powerful and direct influence of this mode of administeri WHICH CONVEYS THE REMEDIES TO THE

This fimiliarity, in connection with certain pathological and microacopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the outre system.

Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter But the cure would be more certain if the patient should pay me a visit, which would give an opportunity to examine the lungs, and enable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again. BROOKLYN ORTHOPARDIC INSTITUTION,
April, 1854.

After most careful examination of Mr. J. Tobias's Glasses, I am enabled to testify that their hardness, clearness, polishing, and exact optical shape, render them particularly recommendably to those whose merely optical impairment of the eyes are in want of such auxiliaries. I consider, moreover, Mr. Tobias fally qualified to determine the focus of the eye, both by his optical knowledge and experience, and by means of his optome er. In addition, I can further state, that Mr. Tobias has supplied some of my patients-with Glasses, to their and my entire satisfaction.

Ccpy of a testimonial which appeared in the Dail. American Organ, May 21, 1855, from Judge V. Ellis, (late editor:)

"Having suffered for many years past with weakness of the eyes, and that defect of vision which results from a too constant and intense use of these sensitive organs, we were led to make a trial of Tobias's new and improved discovery for the eyes, whose name heads this article. We saw them recommended by sundry gentlemen of Virginia, whom we know, and therefore had less heaitation in making the experiment. We are more than pleased with the article. We read with less fatigue with these lens than any we had ever tried before; and we see more distinctly with them. Without neaning to disparage the claims of others who have made improvements in Spectacle Lens, we deem it but just to make the above statement. Mr. Tobias resides on Seventh sirect, opposite the National Intelligencer office."

Norrole, Va., July 27, 1854.

In the experience of even two years, I have found great difficulty an obtaining Spectacles that were exactly adapted to the weakness of my sight. This inconvenience Mr. Tobias seems to have removed for the present by the substitution for me of better and more suitable Glasses. They are clear, crystallike, and comfort able to my eyes. I would commend him to those who, from age or other infirmity, require artificial aid in this way.

J. J. Sinkins, M. D.

Sta: The pair of spectacles you furnished me yesterday are particularly satisfactory to me. They are very decidedly the best I possess, and I am the owner of e ght or nine pairs, carefully selected in different places, and from opticians recommended to me on account of their professional standing in France, England, and the United States. I have been also pleased with your remarks and directions on the treatment of the eyes for the purpose of preserving and improving the sight.

The March number of the "Book and Journal" commences a New Series of "Sermons for the People." Of the former series, Five Editions have been issued, and it is hoped that the New Series will prove worthy of still more extensive circulation. Subscriptions are coming in constantly.

The Sulject of the New series is, "The Pecriess Magnificence of the Word of God; or, the Supremacy of the Bible, as the only Sensible, Infallible, and Divine Authority on Earth." The Text is—"Thou hast magnified Thy word above all Thy name."—Ps. exxxviii, 2. The Design is to assert and maintain the distinctive character of the Bible, as from beginning to ead, the Book of Christ, and, as such, the Mediatorial Law of the World.

In a word, the "Book and Journal" is designed to be

FREDERICK FEMALE SEMINARY,

FREDERICK FEMALE SEMINARY,

FREDERICK CITY, MD.

SCHOLARS will be received at any time during the year, and will be charged from the date of their entrance to the end of the scholastic year. The 1st of January would be a most appropriate time for them to commence.

This Institution has steadily and permanently increased in numbers for the last eleven years, until the present espacions edifice, which is 50 feet front, 50 feet deep, and four stories high, became entirely insidequate to the growing wants of the school.

In August last, the Trustees commenced another building of the same size and external appearance on the west side of the present edifice. This building is now under roof, and will be ready for occupancy early in the spring.

This addition will give us the largest and most beautiful exhibition room in the city, six large professor's rooms, eighteen additional high, airy lodging rooms, and the whole of the high basement will be fitted up for a gymnasium for the young ladies to exercise in during inclement weather. These improvements make it one of the meet extensive and complete establishments in the United States.

This Institution has an able and efficient Board of Professors and Teachers, a good Library, excellent Musical Instruments, an extensive Chemical and Philosophical Apparatus, and it is confidently believed that it offers as many facilities for imparing a thorough, extensive, and refined education as any Seminary in the land.

The school is not sectarian, on the contrary, the young ladies are strictly required to attend such Church as paronts designate, accompanied always by a Teacher.

For Board and Tuition, including furniabled Rooms, Lights Feel, Washing, etc., 8000 per advanced.

Chi.ceh as parents designate, accompanies a Teacher.
For Board and Tuition, including furnished Rooms, Lights, Fuel, Washing, etc., \$200 per scholastic year; payable half yearly in advance.
For Circulars, and other particulars, address
H. WINCHESTER, President.
